

Ultrasonic Round Cake Slicer

Slice up to 240 cakes per hour with the Ultrasonic Round Cake Slicer!

The CHEERSONIC ultrasonic round cake slicer is a machine designed for the accurate cutting of round cakes. It can slice a large variety of products in size, number of portions and temperature range.

The machine is equipped with two cutting tables and four cutting circular chassis or a rectangular chassis for a high production output.

The cake slicer incorporates an automatic and highly accurate product positioning system driven by a motor.

The adjustment of the number of portions is on the operating panel.

- Multiple cutting modes
- Moveable stainless steel cabinet
- Programmable cutting table
- Safety control
- Easy-to-clean
- Easy-to-change diameters
